

Specification:

- housing made of galvanized or stainless steel
- pump adapter holder made of brushed stainless steel with AISI 304 engraving
- doors closed with a magnet/key/coin system
- powder coating
- tools on stainless steel lines fi 4 mm in rubber cover fi 11 mm
 - phillips screwdriver PH2 with integrated swivel-stainless steel AISI 304/420, nickel-plated
 - flat screwdriver 5.5 mm with integrated swivel- stainless steel AISI 304/420 nickel-plated
 - TORX/HEX multitool with integrated swivel – AISI 304/316/420 stainless steel + nickel-plated
 - adjustable spanner 0-36 mm - AISI 420 stainless steel + nickel plated
 - flat spanner 8/10/13/15 mm + pedal wrench - AISI 420 stainless steel + nickel-plated
 - 3 x tire levers with AISI420 stainless steel core – nylon coated for rim protection
 - dual-chamber pump adapter - AISI630 stainless steel + nickel-plated - for all types of bicycle valves (Presta, Schrader and Dunlop) with industrial-grade AISI304 components (IBOMBO AISIPRO 630 HEAD™)
 - manual stationary bicycle pump max. 10 bar
 - thick piston made of stainless steel AISI304 fi 14 mm
 - stainless steel pump handle fi 32 mm
 - anodized aluminum sealant (PA6)
 - antifog pressure gauge with glycerin
- mounting kit (4 x M10 anchors, 75 mm)
- anti-theft nuts for the base of the station with a patent key
- anti-theft screws securing the station component with service bits
- possibility to mount up to 12 tools
- branding of the front and two walls of the station with foil and laminate
 - 1 x 24 x 24 cm
 - 1 x 65 x 11 cm
 - 1 x 115 x 11 cm

Self-Service Bike Repair Station is adapted for use in public space. Its housing is made of **galvanized/stainless steel, powder coated**. Hinged doors that can be opened with coins like in shopping carts, or restricted with a key lock. The device is mounted to the ground or walls with anchors. **Aircraft cables** (7x7 strand construction, Ø 4 mm) suspended inside the device cabinet are used to secure tools made of **stainless steel alloys (AISI 304/AISI 316/AISI 420)**. Their length allows access to certain bicycle components.. **Swivels** allow for better comfort of use when adjusting with screwdrivers or allen keys. The station is equipped with a manual air pump with a **thick piston** made of stainless steel AISI304 fi 14 mm and an **antifog manometer with glycerin**. Double chamber pump adapter made of stainless steel AISI630 + nickel-plated for all types of bicycle valves (Presta, Schrader and Dunlop) with industrial grade AISI304 stainless steel internals. The design of the station allows you to place the bike on the brackets; making repairs or inspecting the bike with the possibility of crank movements. **The QR CODE** located on the front of the station allows the use online publications containing instructions for repairing bicycle faults. The sheet metal components in the device are connected by anti-theft screws.
